**SYNCHRONET MARINE AND SYNCHRONET INTERMODAL SERVICES (SIS)  
LAUNCH NEW BRAND, WEBSITE AND SINGLE URL**

*Single Site URL Provides Simplified Search For SynchroNet Companies*

**Pleasanton, CA – 13 April 2015** – SynchroNet Marine, Inc. and SynchroNet Intermodal Services, Inc. (SIS) today announced the launch of a new corporate logo, combined website for the two organizations and a single, simplified URL [www.synchronet.co](http://www.synchronet.co). In response to customer requests, the organizations are now represented on a single website where customers can easily find the information and the login areas for both the worldwide container services offered by SynchroNet Marine and the North American-focused intermodal services of SIS. The new website also reveals SynchroNet's new look for the Company's brand. The updated logo design and color palette support SynchroNet's corporate focus on services for more effective and efficient use, and transport of the maritime (ISO) container.

"SynchroNet is focused on constant and consistent improvement to our customer experience. As we continuously expand our customer base, the single URL [www.synchronet.co](http://www.synchronet.co) makes the engagement process much easier," said Bob Baker, president and CEO of SynchroNet. "Streamlining site search and the communication pipeline with our customer base is an ongoing process. We strive to enhance and perfect our interaction with our customers at every turn."

**ABOUT SYNCHRONET MARINE, INC.**

Founded in 1996, SynchroNet Marine, Inc. has developed and deployed a highly secure, neutral global container database. From this proprietary technology, customers can:

- Access containers quickly to minimize empty repositioning in order to protect bookings
- Reposition surplus containers economically to locations of high demand
- Interchange containers between parties on an inter-continental or intra-theater level

- Obtain industry-standard container equipment for out-of-the-box or unique customer needs
- Create customized technology solutions to meet unique company and customer needs
